"Innovation Through Excellence"

Brian Phelps
Graphic Designer
1450 Thata Way
Seattle, WA 98101

With industry-leading standards, Konran Media leads the way for the future of digital photography. Harnessing the latest technology, we aim to provide the best quality and service for

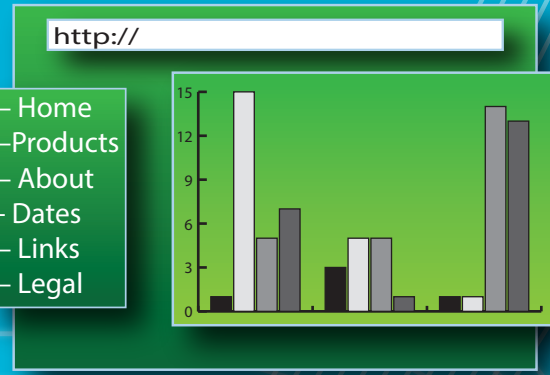

all of your digital photography needs.

Video production is more than something you stare at when there is nothing better to do on a Saturday night. Video production is a passion, a lifestyle for thousands of people all over the world. With Konran Media, you can turn that passion into the next big entertainment hit.

After the advent of the internet in the mid-1990s, the role of the computer in our everyday life has become more and more prevalent. Konran Media has been there from the start to lead the way for new ideas and technologies. Today we are making the boundary between

online and offline even more faint with our innovative webApp system of server structures that lets your clients work with online data as easily and quickly as their offline data.

Icons are an important part of our everyday life. We see them on the highway, on our computer, and give us various instructions or just add "eye candy". Konran Media has developed icons for several systems and websites, many of which have earned Konran Media several awards in the area of design and innovation.
