xXdoa_fanXx

Hi. I like to play a lot of DOA and play it quite seriously. Look forward to playing with other people.

Megaman X

Add to Mains

X was the first robot to possess sophisticated technology and behavioral adaptation, based on the last design of Dr. Light. Dr. Cain, the scientist who found him, was never able to fully analyze X's internal systems and system code. Despite this, Cain was able to replicate X's general architecture, making X the precursor to each and every Reploid brought into production. This made him the proverbial 'father' of the current Reploids.
